Attorney Docket No. 1060A

IN THE CLAIMS

Please cancel claims 1-14.

Claims 1-14 (Canceled)

15. (Previously presented) A massage device comprising:

a generally elongated massage body including a substantially rigid core, an inner elastic layer surrounding said core, a compressive layer surrounding said inner elastic layer, and an outer elastic layer surrounding said compressive layer and having a first end and a second end spaced-apart from said first end;

spaced-apart circular wheels carried by said first end and said second end, respectively, of said massage body, said wheels having hubs, respectively, provided on said core and outer portions provided on said hubs, respectively;

wherein said massage body has a continuous convex configuration between said first end and said second end of said massage body;

a pair of bolts extending through said hubs of said wheels, respectively, and into said core; and

a bolt coupling provided in said core and connecting said pair of bolts.

16. (Original) The massage device of claim 15 further comprising a cover surrounding
